REAL AMERICAN

"SQUEEZER" PLAYING CARDS,

Best quality, of the strongest material, and being highly finished on both sides, they slip readily when handled.

An important feature is that by reference to the "INDICATORS" in the corners all chance of making a mistake in the hand is avoided, as such "Indicators" show the Suit and Size. This allows of the hand being compressed into a very small space, and hence the name "SQUEEZERS." The "Indicators" are in addition to the ordinary pips made to run both ways.

O Z O.

"OZO" contains no Alcohol, only the Salts of Life combined with Iron.
"OZO" in itself is the most delicious of Effervescing Beverages.
"OZO" is the best of Tonics, it wards off Fever, Liver and Dysentery, the Indian trio of ills.
"OZO" heightens Brain-power, without any after depression, its effects being permanent.
"OZO" is the "Pick me up" of the day, sustaining Muscular power without unduly exciting it.
"OZO" forms a "Foaming Cup" in which all—young and old—may participate with lasting pleasure.
"OZO" is, therefore, a Drink of great value, and is recommended as such by the Medical Profession.

NOTICE is hereby given that the undersigned has contracted to purchase from HARIETTE MELIA PHILLIPS, all that piece or parcel of land or ground, with the messuage, tenements, dwelling houses or bungalows, cookroom, stable and godown standing thereon, together with the trees and plantations growing thereon, situate, lying and being at New Town without the Fort-walls of Bombay, registered by the Collector of Land Revenue under No. 1453, 1452, 1450, 1483, and 10,005, and assessed by the Collector of Assessment for the Mazagon District under Nos. 77 and 78, and containing by admeasurement 9864 square yards, be the same little more or less, and bounded as follows : that is to say, on or towards the east by the public road called the Coombarwala Street, on or towards the west by the Jewish burial ground, on or towards the north by the Grant Road, and on or towards the south by the property of Bora Maloo medally Adunaji, and which said premises are situate in the sub-district of Mazagon. All or any persons or person having any CLAIM to the said property, by way of inheritance, mortgage, gift or otherwise are requested to make the same known to the undersigned, care of the *Bombay Gazette*, within 8 days from the date hereof, failing which the purchase will be completed without reference to such claim or claims.—Dated this 20th May, 1881.

KHOJA DHUNJEE JAITHA.

NOTICE is hereby given that HARIPARAYEN GANGADASJEE BAWA GOOROO MATHOORADASJEE BAWA, of Bombay, died in Bombay aforesaid on or about the 17th day of April last, possessed of considerable moveable and immoveable properties situate at Bombay and elsewhere. The Bombay properties consist *inter alia* of the three Temples respectively of Shri Vithalnathjee, Shri Rameshwerjee and Shri Hanumanjee situate at Bhooleshwar, and the several immoveable properties attached to the said Temples respectively, situate at or near Bhooleshwar and Koombharwada, outside the Fort. The said deceased Bawajee, by his last Will and Testament in the Marathi language, and published on the 29th day of March last, appointed our client BALACKDASJEE BAWA GOOROO GUNGADASJEE BAWA as the sole Executor thereof. The tenants occupying the several properties attached to the said three Temples as well as persons indebted to the Estate of the said deceased Bawa Gooroo Gungadasjee are hereby required to pay rents of the abovementioned properties and the debts owing as aforesaid to our said client as the sole Executor of the said deceased Bawajee as aforesaid. And any tenant or person paying rent or debt due to the said estate as aforesaid to any person other than our said client would do so at his own risk and peril.—Dated this 19th day of May, 1881.

CUTLER, PALMER AND Co., SOLE AGENTS IN BOMBAY FOR READ BROTHERS, BOTTLERS OF LONDON.

BASS'S PALE ALE AND GUINNESS'S STOUT.

Neither the Brewers nor the Bottlers have spared any trouble or cost to make these renowned Beers the finest in the world.

Both capital and skill are allied to make them standards of excellence.

PRICES ON APPLICATION.

Trade Marks Registration Act, 1875, 38, and 39 Vict., cap. 91.

THE "BULL-DOG" BOTTLING MARKS.

READ BROTHERS, of London, find it needful to state, for their own protection and that of the public, that they are the Owners of BOTH the original "Bull-Dog" Bottlings, Marks which were originated solely by them in connection with their Bottling Patent.

Any subsidiary bottler using the "Bull-Dog" Mark is accountable to Read Brothers, and must deface the Mark with a signature written across it to show its origin.

But Consumers of so-called "Bull-Dog" Beer should note that there are two distinct brands; one being a Bull-Dog and the other a Bull-Dog's Head. Both Brands belongs to Read Brothers, but they and they alone use the Bull-Dog's Head to authenticate their own bottling of Bass's Ale and Guinness's Stout, and they cannot answer for any other.

CUTLER, PALMER & CO., SOLE AGENTS.

BENN, ASHLEY & Co.,
Agents, Bombay.

MONTHLY PUBLICATION.

NOW READY.
THE
INDIAN TRAVELLER'S GUIDE FOR MAY, 1881,

CONTAINS

THE REVISED Time and Fare Tables of the Great Indian Peninsula, B. B. & C. I., East India, Madras, Western Rajpootana, Sind, Punjab, and Delhi, Punjab and Northern State, Rajpootana State, Sindia State, Holkar and Sindia-Neemuch State Railways, &c., &c., and Steam Boats and Dak Companies, Bullock Trains and Transit Companies, the Routes between the principal towns of Northern, Central, Southern, and Western India, &c.,

WITH A NEW COLOURED MAP OF INDIA.
Showing every Railway Station on the Indian Lines.
PRICE EIGHT ANNAS.
Indian Postage, 1 *Anna.*

Corrected up to the last day of going to press, and published on the 1st of every month at the Bombay Gazette Office.

☞ The Guide has lately been thoroughly revised and considerably enlarged, and the attention of travellers is particularly directed to the table of through-routes and fares from Bombay to places in India and abroad, which shows at a glance how a tourist making Bombay his starting point can spend his time to the best advantage. Short descriptive notices of all places of interest, the hill sanitaria, &c., are also given.

This Guide, having a large monthly circulation throughout India, forms a very good medium for advertisers. For Rates &c., apply to the Manager, "Bombay Gazette."

SPECIAL SHORT ADVERTISEMENTS.

The scale for these Advertisements is as follows :—Not exceeding 3 lines, Re. 1; each succeeding line, As. 8. No trade advertisements are admitted under this scale.

BAZAAR and DHOBIE'S Account-book, with totals ruled for day or week, abstract pages for each month. Price, Re. 1-8.—Caxton Works, Bombay.

FOR SALE at

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MAY 19.

THE Council drafts in London yesterday brought fully as good a rate as was anticipated here, the average, from what we can learn through private channels, being nearer 1s. 7¾d. than 1s. 7 11-16d. Bar Silver was unchanged at 51 9-16d. per oz., but Four-and-a-half per cent. Rupee Paper was ⅛ higher at 91½, Fours unaltered at 84⅛. The shipments during the week of £90,000 in Silver and £20,000 in Gold for this port is a noticeable feature, and is certainly to some extent against Exchange.

The rise in Consols continues, yesterday's quotation being 102⅛. The quotation is unprecedented, and should this level be maintained for any length of time, it is not at all unlikely that the advisability of a conversion of the 3 per cents. to a lower rate of interest may attract attention. Cheap money has always, of course, a tendency to foster speculation, and a re-action may thus be brought about; but there can be no question that the want of remunerative sound investments at home is beginning to make itself distinctly felt. French Rentes are still quoted at 120⅛.

Reuter's quotations for Metals show no alternation. General Produce is also practically without change.

Piece-goods in Manchester continue quiet but steady. The Liverpool Cotton Market yesterday closed in favour of buyers, the day's sales being reported at 10,000 bales, spot prices unchanged, but American futures 3-32d. lower. In New York yesterday the quotation for ready Mid-Uplands was unaltered at 11 9-16 cents, but August shipment was 8 points higher at 10·62 cents. per lb. The receipts to date stand as follows :—

	1881.	1880.	1879
Wednesday's Receipts.....	6,000	5,600	2,800
Friday's do.	29,000	18,800	17,100
Total since 1st Sept.	5,438,400	4,719,800	4,360,800

EXCHANGE this morning opened firm with an advance of 1-32d. in Bank and 1-16d. in private paper. No change took place throughout the day, but no great amount of business has been done, the rise being insufficient to attract remitters, but enough to deter sellers from operating freely. We quote at the close :—

Bank Bills on demand.....	1s.7 7d.		per rupee,
Do. telegraphic ...	7 23-32d.		,,
Do. 3 months' sight	1s. 7 7d.		,,
Credits, 3 ,, ,,	1s. 8d.		,,
Documents, 3 ,, ,,	1s. 8 1-32d.		,,
Francs, 3 ,, ,,	2f. 11 1c		,,

On Calcutta we quote demand drafts at par, 60 days' sight at 11-16 per cent. discount.

GOVERNMENT PAPER to-day has again been in active request at steadily advancing rates, and a considerable business has been done up to Rs. 103¼ for Fours and Rs. 110¾ for Fours-and-a-half.

SHARES are fairly steady, but not active. Bank of Bombays have receded to Rs. 746½, National Bank of India to Rs. 107 ex d. Colaba Land and Mill shares are Rs. 15 higher at Rs. 980. In Press Companies the only movement is an advance of Rs. 10 in Mofussil Co., which now stand at Rs. 335. Spinning and Weaving Mill shares are somewhat irregular. There is an advance of Rs. 5 in Jewraz Balloo, Katao Muckoonjee, Manockjee Petit, National, Great Eastern Oriental, and Soonderdass, Rs. 15 in Coorla and Hindustan, but Alliance are Rs. 15 lower and other companeis unchanged.

COTTON has been a remarkably quiet market. Sellers have shown no disposition to give way in prices, but buyers operate very sparingly, and the market cannot be called strong. The non-arrival of the Dhollera boats still adds to the firmness, but large receipts may be looked for in the course of the next few days.

SEEDS and WHEAT are practically unchanged so far as fresh business is concerned.

FREIGHTS are firm but not active. For Liverpool we quote 40s. by steam, 50s. by sail. The sailing ships Austriana and T. P. Hillyard have been fixed for Havre and the Hospodar for Bremen. Steam tonnage for July loading has been rather more freely offered, but not at rates to attract charterers.

PIECE-GOODS continue as quiet as ever with no change in prices. From the bazaar the clearances are only some 150 packages a day, and, so far as can be seen, up-country buyers have done all they care to do in anticipation of the monsoon.

COALS, although quiet, are pretty steady with few sallers to arrive.

Peacocke, Surg., on duty, to Surat.

BOMBAY VOLUNTEER RIFLE CORPS.

REGIMENTAL ORDERS

BY LIEUT.-COL. COMMANDANT W. S. HEWETT.

Bombay, May 19, 1881.

1. In accordance with the District Order No. 886 of the 17th inst. the Regiment will parade at the Bandstand near the Oval on Tuesday, the 24th inst. at 5 a. m. sharp, and will march on to the Oval to take part in the Brigade parade in celebration of Her Most Gracious Majesty's birthday. Three rounds of blank ammunition to be issued per rifle and all ball ammunition to be removed from the pouches before coming on parade. White uniform with helmets, arms and accoutrements to be worn. All members are particularly requested to do their utmost to attend this parade.

By order,
A. W. PROUDFOOT,
Lieut. and Adjt., B. V. R. C.

BOMBAY GOVERNMENT ORDERS.

(*Bombay Government Gazette*, May 19.)

MILITARY DEPARTMENT.

Capt. D. S. Kemp is permitted to resign his Commission in the B. V. R. Corps.

The following extract from Field Force Orders by Major-Genl. R. Hume, C. B., Comdg. in Southern Afghanistan, dated Kandahar, 16th April, is confirmed :—

"No. 558.—Under para. 19 of the Rules for the Transport Service, Kandahar Line, which directs Transport Officers to be posted at the several stations along the road, and to be under the orders of Transport Officers in charge of Sections, Lieut. C. R. Phillips, 19th Bo. N. I., performed the duties of Transport Officer from the 5th Sept. to the 24th Oct. 1880, in addition to his other duties. The transport duties performed by this officer were other than regimental, subject to confirmation."

Lieut. G. B. C. Westropp is admitted to the B. S. C., with effect from 26th April 1880, subject to the confirmstion of the Rt. Hon. the Secy. of State for India.

Surg. Major L. S. Bruce, in Medical charge 25th N. L. I., is appointed, in addition to his regimental duties, to act as Dy. Surg.-Genl., Presy. Dist., vice Dy. Surg.-Genl. Moore, or until further orders.

Surg. W. P. Carson, I. M. D. is allowed furlough to Europe for one hundred and eighty-four days on medical certificate, with the necessary subsidiary leave.

Second Lieut. H. F. E. Hodges, 15th Foot, is appointed a Probr. for the Bo. S. C.

Second Lieut. T. A. Payne, G. I. P. R. V. Corps, is granted leave to England for three months from the 14th June next.

The undermentioned officers have been granted by the Secy. of State for India extensions of leave for the periods specified :—

Lieut. F. J. Tobin, 86th Foot, Probr. for the S. C., three months, medical certificate.
Col. C. L. R. Glasfurd, S. C., six months, medical certificate.
Asst. Apothy. W. Church, six months, medical certificate.
Lieut.-Col. S. Remington, S. C., has been permitted by the Secy. of State for India to retire from the Service, 26th April.
Apothy. M. F. Lobo, Med. Warrant officer, Sub. Med. Dept., is allowed furlough in India for twelve months on medical certificate, with the necessary subsidiary leave.
Col. C. T. Heathcote, C. B., Comdt. 19th N. I., commanded the Sind Dist. from the 31st March to the 19th April, vice Major-Genl. Wood, C. B., who vacated on promotion.
Second Lieut. Scott McKenzie, Sind V. R. Corps, is granted leave to England for three months on private affairs from the 20th May.
The services of Surg. Major W. Niven are placed at the disposal of H. E. the C.-in-C. from the 7th March.
Major A. Poole, S. C., H. M.'s 5th Bo. N. L. I. is allowed furlough to Europe for one year on medical certificate, with the necessary subsidiary leave.
Lieut. J. Monteith, S. C., Sqdn. Officer, 2nd Sind Horse, is allowed furlough to Europe for one year on medical certificate, with the necessary subsidiary leave.

TELEGRAMS.

SOUTHERN AFGHANISTAN.

(FROM OUR OWN CORRESPONDENT.)
ALLAHABAD, MAY 19.

Sirdar Alum Khan and his party arrived at Quetta on the 15th inst.

On the same day, Taj Muhammad Khan Seistani, a Persian refugee of note, who did good service for us at Kandahar, left on his way to Persia through Beluchistan, the Shah having permitted him to return to Teheran.

It is reported that a merchant travelling from Kandahar to Herat has returned from Girishk in consequence of a rumour there that the Sartip, with some sowars, had reached Washir from Herat.

It is said that the Amir's Governor intends sending 400 Khassidars, one regiment of infantry, and one of cavalry to Zemindawar immediately.

All is quiet at Kandahar, but the people are suffering in consequence of high prices prevailing. The postal service between Kandahar and Chaman is working well.

STATE OF AFFAIRS AT KANDAHAR.

(FROM THE PRESS COMMISSIONER.)
SIMLA, MAY 19.

It is reported at Quetta that all was going on well at Kandahar up to the 15th. The Ghilzai troops have left for Girishk; there was no news of importance from Herat.

[REUTER'S TELEGRAMS.]

(By Red Sea Cable.)

SURRENDER OF MIDHAT PASHA.

CONSTANTINOPLE, MAY 18.

Midhat Pasha has surrendered himself to the Turkish authorities, the Consuls at Smyrna having refused him an asylum.

MR. GLADSTONE.

LONDON, MAY 19.

Mr. Gladstone has so far recovered from his indisposition as to be able to transact business.

[Reuter's agent informs us that owing to various mutilations, the remainder of our to-day's telegram is rendered unintelligible.]

THE NEW RUSSIAN MINISTRY.

CIRCULAR OF COUNT IGNATIEF.

ST. PETERSBURG, MAY 18.

A Circular has been issued by Count Ignatief, the new Minister of the Interior, stating that autocracy alone is able to remedy the evils connected with the internal affairs of the Empire. The Government will endeavour to extirpate the spirit of rebellion now existing to strengthen the faith and morals of the people, and to alleviate the condition of the peasantry.

STEAMER MOVEMENT.

LISBON, MAY 19.

The B. I. S. N. Company's steamer Dorunda, homeward bound from Calcutta, Madras, and Colombo, left there on the evening of the 18th inst.

LONDON, MAY 18.

The Liverpool Cotton Market closed in favour of buyers. Surats unchanged.

The London Cotton Market has been quiet.	
Fair Dhollera	4 1-16d.
The Manchester Market has been quiet but steady.	
4 per cent. Rupee Paper	84⅛
4½ do. do.	91⅜
3 do. Consols for account	102
5 do. French Rente, 1872	120½
Bar Silver	51 9-16

Arrival—Cosmo.

WEDNESDAY, MAY 18, 1881.

At 10 p.m. ... 83·6

We hear that H. E. the Governor has forwarded to Mr. Wright a cheque for Rs. 100 towards the cost of establishing the Back Bay Swimming Bath.

It is notified in yesterday's *Bombay Government Gazette* that "Colonel G. R. S. Burrows, Bombay Infantry, is permitted to proceed to Europe under the Regulations."

The "general remarks" appended to the Season Reports of the Bombay Presidency, issued by the Revenue Department, for the week ended the 11th inst., state:—"Rains fell in several of the Southern Districts, heavily in parts of Belgaum and Dharwar. Land is being prepared in many parts for monsoon crop. Locusts have been seen in Sind and Belgaum, but no damage has been done. The heat is great. Public health is fair.

The Secretary of State for India (Lord Hartington), in forwarding to the local Government a memorandum by the Army Sanitary Commission on the report of the Bombay Municipality for 1879, remarks:—"It is not necessary for me to make any observations upon the report itself, which has been fully reviewed in your resolution of 9th July last, and which you consider generally satisfactory. As, however, it appears that this is the last annual report to be submitted by the late Municipal Commissioner, Mr. J. H. Grant, C.S., I am unwilling to pass over, without notice, the high appreciation of his valuable services to the Municipality expressed by the Town Council, and concurred in by your Excellency."

The Army Sanitary Commission thus conclude their memorandum on the Bombay Municipality's Annual Report for 1871:—"Our principal recommendation of a practical kind with which we would conclude the present memorandum is that the city drainage should be proceeded with as quickly as possible, and on one consistent plan, including the water-supply. Water-supply and drainage are not two works, but one and the same work. For sanitary purposes the water-pipe is really the head of the drainage, and the outlet sewer is the ultimate extremity of the water-pipe. It is impossible to separate them, as has been done in England, by permitting the water-supply to be an object of private speculation, and placing the drainage under a public trust, thereby creating risks to public health and increase of cost to ratepayers, which it would be most desirable to avoid in India, although both water-supply and drainage have hitherto been under one authority there."

We hope to see a good turn out of the Bombay Volunteers at the Queen-Empress's birthday parade on Tuesday morning. For the convenience of members of D Company, many of whom live out at Byculla and Mazagon, it has been arranged that tram-cars shall leave the Girgaum and Byculla termini at half-past four o'clock. Men who have to come in this distance will have to be up early, and will no doubt be ready for breakfast by the time the drill is over; and the officers of the company have considerately invited the men to breakfast at the conclusion of the parade in tents on the Esplanade. Apart from the exertions they will undergo on this occasion, D Company deserve such a recognition of their work for the corps; they having turned up far better throughout the drill season than any other company—in fact, have mustered frequently quite half the men present at battalion parades.

Mr. H. Riola has been appointed Professor of Russian at the Staff College; the professorship having been added not too soon to the establishment.

Regarding our present and future attitude towards Southern Afghanistan, the *Pioneer* remarks:—"According to the papers received by the last mail, Lord Hartington's pledge given long ago, viz., that Quetta should be the extreme point of occupation in South-Eastern Afghanistan, is still looked upon as binding the Government to withdrawal from Chaman and Pishin in the autumn, and the Radicals will insist upon the wishes of the Indian Government being over-ruled when the time comes. Nothing, indeed, but a bold front and the most outspoken protests will prevent the withdrawal being hereafter ordered, and it is to be hoped the Viceroy and his advisers will insist upon due attention being paid to their views. Sir Robert Sandeman, we hear, has had several interviews with Lord Hartington in London, and has pointed out very clearly the advantages to be gained by keeping our troops within a few marches of Kandahar."

Sir Bartle Frere has joined the Board of Directors of the British India Steam Navigation Company.

Referring to the complaint that many Calcutta Baboos have adopted scarlet livery, the *Madras Mail* remarks:—"The use of the Royal colour by two or three wealthy natives of Madras compelled the local Government some years ago to instruct the Police Commissioner to communicate to the gentlemen at fault that they were guilty of a breach of good taste, and it was found that the communication had not to be repeated."

Some guide to the extent of the drought of the last season in the North-West Provinces is furnished by the irrigation statistics for the kharif season, 1880-81. The area irrigated reached the total of 700,139 acres, a large increase on the previous year—which in its turn showed an unusually high figure—and only 31,000 acres less than the notorious season of 1877-78. As to the crops irrigated, the chief features are a considerable decrease in sugarcane, and increase of rice, the area of the latter crop under irrigation having almost doubled itself. This the report attributes to the insufficiency of the rains in the latter part of the season during August and September, making canal water indispensable for all the late rice. The Rohilkund canals, which water the chief rice districts, show in consequence a large increase both of area and revenue. The unirrigated crops, where they did not fail completely, were only saved, as at Muttra, Aligarh, and Etah, by coming in for a share of the heavy rain which fell in the hills and up-country, in the middle of September. The *Pioneer* says a study of the figures, for the last four years, as given in these returns, does not tend to lessen the anxiety with which the coming season is looked forward to.

The report of the expert who examined the specimens of quartz from Mr. Anwarts' property near Galle, is to the effect that though traces of gold were found in it was not in sufficient quantity to be profitably worked.

The preliminary returns of the late census of Singapore show a total population of 133,816, as against a population on the 2nd April, 1871, of 97,311, which gives an increase of 41,705, or nearly 45 per cent. The town population is put down at 94,798; country 31,591; islands 4,871; floating 6,311; military 1,142; and houseless 103.

The following extract from the evidence given before the Lords' Committee on East Indian Affairs in 1830, by Mr. T. H. Baber, may be interesting in connexion with the present gold fever in Southern India:—"Had any gold been discovered in Coimbatore before you left India?—Yes; not only in Coimbatore, but throughout the tract of the country lying west and south of the Neilgherry Mountains and Koondanad. I have often seen the whole process, and have purchased gold extracted before me. Is it found there in any quantities?—Yes. The whole of the country west of the Neilgherry Mountains, in the talooks of Parakameetil, especially at Nelliala, Cherangote, Koongote, Kotah, Nambolacota, Daraloor, &c., &c., also the adjoining Koondanad and Gaat mountains, and all the rivers and cholas (water-courses) down as far west as Nellambore and south-west as Caladicota, Karimpure, Aliparamba, &c., the whole tract, including the mountains, perhaps comprising 2,000 square miles, I may say, is impregnated with gold. Even the very stones in the beds of rivers, when pounded, have been found to contain particles of that valuable metal. Do you know whether any considerable quantity has yet been brought from that country, or in large pieces?—I have seen pieces perhaps weighing half-guinea, solid pieces, but generally it is in extremely small particles. Is it found in washing the sand of the river?—Yes, in all the rivers as far as Nellambore, Karimpure, &c., as well as in the soil. Is the right of searching for it confined to the Government, or to the proprietor of the land?—To the proprietor of the mountains and places where it is found, which are equally private property as the lowlands. Are there any establishments formed for the purpose of seeking for it?—None. The persons employed are the slaves of the proprietors. How long has it been known to be produced in this river?—As long as we have known anything of Malabar. The process is, as your Lordships may suppose with such people, extremely simple. How does it happen, if it is so abundant that it has never been sought for on a greater scale?—Because the land belongs to individuals who are exceedingly jealous, and will allow no persons but themselves to dig for it. They probably extract as much gold as their means will enable them." The *Englishman* remarks that it is impossible to read Mr. Baber's statements without being surprised at the tardiness with which British capital and enterprise have been brought to bear on a source of wealth the existence of which has been well known for more than a hundred years, and the difficulties in the way of developing which have so long been removed.

Life relates an incident of the Census. A dear, innocent creature explained it to her bosom friend thus:—"You see, when I married I was 19, and my husband 26. Well, his age has doubled since then . . . . and so has mine, of course!" And this was why she appeared in the Census paper as 38!

The *St. James's Gazette* writes regarding a recent painful occurrence in Bombay:—"It will be remembered that the minutes of certain members of the Council of the Governor-General of India on the Kandahar question did not reach this country in time to be presented to Parliament before the Afghan debate in the House of Commons. Lord Hartington expressed his gravest regret at the accident which delayed their despatch; and, when at last they arrived, his opponents found reason to congratulate him on the misadventure which at a critical time prevented the country from knowing with what earnest emphasis the missing documents condemned the ministerial policy. But it seemed the incident would end. But in India it has led to a tragic result, and is discussed with the most painful interest. The Deputy Postmaster at Bombay seems for many years to have discharged his duties with credit; but he had been lately in bad health, and, like too many officials in India, had brooded over disappointments about promotion. The Postmaster-General came to Bombay to investigate the question of the missing packet, and (as the Deputy Postmaster wrote in a memorandum he left behind), wanting to find some scapegoat for the blunder, pitched on him. However this may be, it is certain that a letter which he wrote drawing attention to his grievances was coldly answered with an intimation of surprise that a request for promotion should be made when such a blunder had been discovered in his office. Receiving this reply, which told him in effect that he was to hope for no promotion and no removal from Bombay—a place to the unhealthy climate of which he attributed his ill-health—he took poison and died. 'I cannot,' he wrote in his last letter, 'accept the error unless the D. G. P. O. crammed the papers in the grave with me, and then I may have trouble in reading them.'"

Joubert, the Boer leader, was, according to one of the New York papers, born in a cabin in Fayette County, Pennsylvania. He was the son of Jacob Joubert, who with his wife, Barbara, emigrated from Holland and settled in Brownsville, Fayette County. A few months later they moved to Uniontown, in the same county, where they lived two years, Jacob working at his trade, moulding bricks by hand and doing "odd jobs" for the Honourable Daniel Sturgeon, then United States Senator from Pennsylvania. In the spring of 1841 Barbara Joubert gave birth to a son, who was christened Daniel Sturgeon Joubert. In 1845 they changed their residence to Connellsville, in the same country, where they accumulated some money. About 1850 both parents died of cholera, and the child Daniel was taken charge of by a kind neighbour, his parents' money, amounting to about seven hundred dollars, being placed on interest. The boy subsequently ran away from his benefactor, and for an alleged assault and battery on a man named Johnson, on the 11th of April, 1855, was arrested at Connellsville, but acquitted on trial. He then made his way to New York, worked his passage by steamer to Holland, and at Amsterdam made the acquaintance of Adam Joubert, his uncle, the captain of a ship in the South African trade, with whom he made several voyages to the Boer country. In 1862, hearing of the American civil war, he returned to New York, enlisted in the United States Navy, served with distinction under Admiral Dupont and others, and lost an eye at the bombardment of Charleston, for which he now receives a pension from the United States Government. He was next heard of as captain of a negro company in the army of the Potomac, and marched with General Wetzell's coloured troops, who, after Lee's surrender, took possession of Richmond. After his discharge he visited Uniontown under an assumed name. The one-eyed captain revealed himself, however, in full uniform to ex-Senator Sturgeon, then over eighty years old, who obtained for him the seven hundred dollars placed on interest years before and its accumulations. Joubert afterwards sailed for Holland, and thence to the Transvaal.

A correspondent of the *Daily Telegraph* describes the precautions taken to secure the safety of the Czar during his residence at the palace at Gatchina, about thirty miles to the south-west of St. Petersburg. "A subterranean passage," the writer says, "leads from his bed-room to the stables, where a number of horses are kept saddled and bridled day and night. Sentinels are posted at intervals of twenty yards all round the building. The imperial bed-room, which has two windows protected at night by massive iron shutters, can only be reached from the outside by passing through three spacious ante-chambers, in which are posted eighty Cossacks armed to the teeth. They are allowed to speak and move about in the two outer rooms, but in the hall adjoining the Czar's bed-room perfect silence is maintained all night. The general on service for the day sits in an easy chair, his Cossacks on a divan which runs round the whole room. At the general's right hand is the push of an electric apparatus which rings a bell in every guard-house within the palace grounds. When the Emperor is about to retire to rest, before shutting his door, he removes the outer handle, so that no entrance can be effected till he himself personally opens the door from the inside. Unlike his late father, he cannot endure the presence of an armed soldier in his bed-chamber."

The latest example of what Mr. Ruskin calls the "Amazon work" of Mrs. Butler—better known as Miss Thompson—has been exhibited at the Egyptian Hall. It is a picture of the decisive charge of the "Greys" at Waterloo, the charge in which they routed the finest regiments of Napoleon's Cuirassiers, at an expense (according to M. Thiers, that is) of six hundred killed and wounded. The regiment is shown coming straight out of the canvas and at the spectator. The horses are at the gallop, and the men have just delivered their famous cry of "Scotland for ever!" a shout which was taken up by all the Scotch regiments in their neighbourhood. The charge is led by a young officer, who occupies the centre of the canvas; and behind him to the right and left stretch the lines of stalwart troopers on their ponderous horses—among them the young trumpeter who has just fallen back wounded from his place by the squadron leader. In vigour of movement and in successful grappling with some of the chief difficulties of the painter—such as the foreshortening of the horses' heads and legs—this picture is more remarkable than any of Mrs. Butler's previous works. It also shows considerable improvement in colour, especially in the painting of such accessories as the cloudy sky of Waterloo and its trampled soil. Drawing and modelling are correct, and extremely animated, while the characterization of the few soldiers' heads which are fully seen comes up to the standard to which Mrs. Butler has accustomed the public.

THE LOFTUS TROUPE.

This company gave a most amusing entertainment on Wednesday evening. The Co-regent of Hyderabad was present, and there was a large house. The "negro" performance was very laughable, and there was some capital singing and dancing. Altogether the entertainment was highly appreciated by the audience, the very little lady, as usual, gaining a large share of the applause.

GOVERNMENT MEDICAL OFFICERS.

The following list of appointments in the Bombay Presidency under the control of the Surgeon-General with the Government of Bombay and held by Covenanted Medical Officers, is published in supersession of that promulgated in G.G. O., No. 274, dated 27th April:—

Secretary to the Surgeon-General with the Government of Bombay.
First Physician, J. J. Hospital, with College duties.
Second do. do. do.
Senior Surgeon do. do.
Second do. do. do.
Obstetric Physician do. do.
Presidency Surgeon, 1st District, do. and Ophthalmic Surgeon.
Presidency Sergeon, 2nd do. and Marine Surgeon.
Do. 3rd do. and Surgeon to the House of Correction, the County Jail and the Byculla Schools.
Surgeon to European General Hospital, Bombay.
Assistant to Surgeon to European General Hospital, Bombay, and Professor of Pathology.
Surgeon, Gokuldas Tejpal Hospital, Bombay.
Superintendent, Lunatic Asylum, Colaba.
Surgeon to His Excellency the Governor.
Chemical Analyser to Government, with College duties.
Port Surgeon, Aden.
Kathiawar State Railway.

Civil Stations.—Civil Surgeons: Ahmedabad, Dharwar, Karachi, and Poona; and Assistant to Civil Surgeon, Poona. Civil Surgeons: Ahmednagar, Broach, Dhulia, Hyderabad, Kaira, Karwar, Sukkur, Ratnagiri, Satara, Shikarpur, Kaladgi, Surat, Panch Mahals, Thana. Superintendents: Matheran and Mahableshvar.

Appointments under the Foreign Department. Under Government of Bombay.—Bushire (Persian Gulf), Baroda, Kathiawar, Bagdad, Aden, Zanzibar, and Muskat.

BOMBAY.

TO-DAY.

Band H. M.'s Marine Battalion, Apollo Bunder, this evening.

Vessels Arrived.—The following vessels arrived on the 18th:—Kerbela (s), from Calcutta; Kepler (s), Cardiff; Byculla (s), Moulmein; Peggie Day, Mauritius. Yesterday:—Scio (s), Cardiff; Euphrates (s), Bussorah; Chinsura (s), Calcutta.

Vessels Sailed.—The following vessels sailed yesterday:—Thibet (s), to Venice; M. Curtis (s), Antwerp; C. of Selkirk, Rangoon; Rhoda, Moulmein.

Band at the Apollo Bunder.—The following is the programme of music to be played by the band of H. M.'s Marine Battalion at the Apollo Bunder this evening:—

March		
Overture	Tancredi	Rossini.
Selection	Scotch	Hartmannen.
Selection	Madame L'Archiduc	Offenbach.
Valse	Abschied Von Munchen	Gung'l.
Galop	Victoria	Kuhner.

God save the Queen.

Prince's Dock.—The s. s. Scio entered, and the Red Star left, the dock yesterday.

Tulsi Lake.—The height of water in the Tulsi Lake up to 6 a.m. on Sunday, the 15th instant, was 23·35 feet. The height in the corresponding week last year was 18·22 feet.

False Declaration of Goods.—At the Girgaum Police Court, Mahadew Trimbuck was fined by Mr. Dosabhoy Framjee Rs. 40 for making a false declaration of goods for despatch to Calcutta, to the G. I. P. R. authorities at Waree Bunder.

Street Accident.—Deenbai Merwanjee, a Parsee female, aged 65 years, while going along the Cheera Bazaar road, was knocked down and run over by a shigram, causing a severe comminuted fracture of the right knee joint. She was conveyed to the G. T. Hospital, where she is under treatment.

Death from Drink.—A Coroner's inquest was held yesterday at the Cowasjee Patel Tank Road, on view of the body of Dharma Kanjee, aged 50 years, a tile turner and an habitual drunkard. The verdict was that the death of the deceased was caused by apoplexy, the result of excessive drinking.

The Nerbudda Bridge.—There was an awkward misprint in our account of the Nerbudda Bridge. The following sentence appeared:—"In no case are there any of these lodes found in less than 30 to 45 feet in hard material." It should have read that in no case are there any of these columns founded less than 40 to 45 feet in hard material. This is important from an engineering point of view, especially as the bridge is claimed to be one of the best founded structures in existence.

Assault.—Yesterday Purshotum Shreecrishna, an auctioneer, Nanabhoy Suddanund, Sewtapursad Rambuccus, and Wittoo Maloo were convicted by Mr. P. Ryan of assaulting Purshotum Fakeerchund on the 6th instant, and also of trespassing in Purshotum's premises at Lohar Chawl on the same date. Defendant No. 1 was fined Rs. 20, and the other three defendants were fined Rs. 10 each.

A Suspicious Character.—Fakeera Dhondee was yesterday convicted by Mr. Dosabhoy Framjee of having in his possession three locks and keys, reasonably suspected to have been stolen or fraudulently obtained; and failing to render a satisfactory account how he came by them, he was fined Rs. 20, or in default to suffer fourteen days' rigorous imprisonment.

Committed to the Sessions.—On Wednesday last, Navivahoo, a widow, and Mooljee Goculdass were committed by Mr. P. Ryan for trial at the next Criminal Sessions of the High Court charged with giving false evidence in a judicial proceeding, preferred against them by Cullianjee Narronjee, in respect of a suit recently heard in the Small Cause Court.

Statement of Silver Balance in the Mint.—The value of silver in the Mint on the morning of the 9th May was Rs. 17,48,529. In addition silver received during the week, Rs. 16,067. New coin paid during the week Rs. 2,568. The balance left was Rs. 17,62,028. There is in addition silver bullion valued at Rs. 7,486 belonging to private individuals deposited in the Mint vaults and awaiting assay.

Gamblers.—Chimoo Koodabux and eight others were yesterday charged, at the instance of Mr. Inspector McDermott, before Mr. Dosabhoy Framjee, prisoner No. 1 with keeping a common gaming house at Kharra Talao, and the rest of the prisoners, together with prisoner No. 1, with being found gaming therein with cards, dice, and money. Prisoner No. 1 was fined Rs. 20, three others were fined Rs. 10 each, and the others Rs. 5 each.

Thefts.—Abdool Rahimon Kurrim was yesterday convicted by Mr. Dosabhoy Framjee of stealing a copper dish, valued at Rs. 1, the property of Ismail Cassum. Being on old offender, he was sentenced to two months' rigorous imprisonment.—Bagoo Babajee and another man were yesterday convicted by Mr. P. Ryan of stealing an ivory comb and a purse, the property of Dhurumsey Khimjee. They were each sentenced to one month's rigorous imprisonment:—Rama Mahadoo was also yesterday convicted by Mr. P. Ryan of stealing a quantity of wearing apparel, belonging to Goverdundass Dewjee. He was sentenced to one month's rigorous imprisonment.

Births and Deaths in Bombay.—The total number of deaths registered during the week ending Tuesday, 17th May, was 450, being 3 more than in the previous week, 17 more than the week ending 18th May, 1880, and 105 less than the mean of the corresponding period in the preceding five years. During the week 298 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 34·09. There were 115 deaths from remittent fever, being 3 less than the previous week and 17 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 62, 23, and 19, respectively, as compared with 34, 9, and 22, last year. There were 3 deaths from cholera in the week under notice, while none in the week previous. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

Presentation to a Kurrachee Clergyman.—The presentation of an address and a purse by his native friends—Christian and others—was made to the Rev. Mr. Sheldon in the old Charitable Dispensary, Cunyingham Square, last Friday evening, before a large gathering. There were present Mr. and Mrs. Herbage, Mr. and Mrs. Patton, Mr. and Mrs. Treppas, the Reverends J. Bambridge and E. A. Ball, Mr. Irvine, Mr. Edulji Fakirji, Messrs. Jacob Elapa, and numerous others. The room was tastefully decorated with flowers and evergreens and the outer premises were lighted with Chinese lanterns. M. Versia t's string-band was also in attendance, and upon the arrival of Mr. and Mrs. Sheldon, it played the Old Hundreth. Upon Mr. Ruthnaswamy's motion, Mr. Herbage was voted to the chair, and he explained that the meeting was the result of a unanimous desire on the part of Mr. Sheldon's native friends, amongst whom Mr. Sheldon had laboured so many years, to give expression to their regret at his approaching departure and to ask his acceptance of a purse as a substantial token of their respect and esteem. The Chairman having called upon Mr. Ruthnaswamy to read the address it was done and the purse presented to Mr. Sheldon, who responded in very feeling terms. *Atar, pan,* and flowers were then distributed, and, with three cheers for Mr. Sheldon and three more for Mrs. Sheldon, the meeting dispersed.—*Civil and Military Gazette* (Kurrachee.)

MESSRS TREACHER AND COMPANY, LIMITED.

The seventeenth annual ordinary meeting of shareholders was held in the Fort premises yesterday evening, Mr. John Cruddas presiding. The notice convening the meeting having been read,

The Chairman said that strong representations having been made to the directors by an influential portion of the Company's shareholders that a larger dividend should be declared, the dividend was increased from Rs. 80, as mentioned in the directors' report, to Rs. 90 per share. The directors had in consequence to amend the profit and loss account, as was shown in the amended proposed disposal of profits for the year ending 31st March, 1881. The Chairman hoped that the alterations would meet with the approval of the shareholders. The business of the Company, he was glad to say, was steadily increasing both here and in the mofussil, which was an indication of their popularity. The shareholders would see from the amendment that Rs. 20,000 instead of Rs. 10,000, as originally proposed, were carried to the insurance fund, which was enough to meet their wants. Considerable alterations and additions had been made in their building in the Fort. There was no doubt that the building was formerly in a most dangerous and unsatisfactory state. But now that the desirable alterations were made, as also an improvement in the architectural features, there could be no doubt whatever about the stability or convenience of the building. Besides, many obstructions to light and ventilation, which formerly made the place very hot, were now removed. He (the Chairman) was sorry that the directors, in making the alterations, had considerably exceeded the original estimate, which was Rs. 30,000. But they could not help it, the difficulty of making a correct estimate being very great. They were, moreover, compelled by Government to modify the architectural features of the building. But he was quite sure that in its new shape the building would meet with the approval, at any rate, of the shareholders. The Chairman then referred to the valuable services of their managers, Mr. Cawdell in particular, splendid business qualities was due the continued success of their business. In the year 1875, they paid a dividend of six per cent., they now paid 18 per cent. In 1875 the shares were valued at Rs. 350; now they had risen to Rs. 880. These figures, the Chairman observed, spoke more eloquently than any words of his of the prosperity of the Company. He had no doubt that as long as they had Mr. Cameron here, the Company would prosper. With these remarks the Chairman proposed that the report and amended accounts for the year ending 31st March, 1881, be received and adopted. This was seconded by Mr. Prescot, who said that the thanks of the shareholders were due to the Chairman, who spent much time and labour in behalf of their interests. The resolution was then carried.

The following are the amended accounts referred to in the Chairman's speech:—

Dividend at Rs. 90 per share, Rs. 1,79,100, write off for deterioration of Byculla property, Rs. 3,012-9-11; write off for deterioration of "Poona property, Rs. 978-7-10; write off for deterioration of plant, Rs. 1,536-4-4, total Rs. 5,527-6-1; carry to Insurance Fund, Rs. 20,000 carry to building Fund Rs. 25,000, total Rs. 2,29,627-6-1, leaving a balance of Rs. 1,339-5-11 to be carried forward.

Proposed by Mr. G. H. Farran, and seconded by Mr. Hormusjee Shapoorjee, "That a dividend of 18 per cent. for the past year be paid on and after the 3rd June, 1881."

The following propositions were also carried *nem. con.*:—Proposed by Dr. G. A. Mackonachie, and seconded by Mr. Manockjee Gerakdass, "That Mr. C. A. Winter be confirmed a director of the Company.

Proposed by Mr. Shapoorjee Jeevanjee, and seconded by Mr. Burjorjee Pallonjee, "That Messrs. Alexander Moorhouse and H. R. Cormack be elected auditors for the ensuing year at a remuneration of Rs. 350 each.

Proposed by Mr. Keily, and seconded by Mr. N. Richardson, "That Alexander Mackenzie be re-elected a director of the Company."

On the motion of the Chairman, the directors were authorized to distribute a bonus not exceeding Rs. 3,000 among the company's servants hereafter. After a vote of thanks to the Chairman, the proceedings terminated.

THE NEW APOLLO PRESS COMPANY.

The first ordinary general meeting of shareholders of the company was held yesterday at its registered office, Elphinstone Circle, Mr. E. M. Fogo, of Messrs. Remington and Co., presiding. The new company was registered on the 23rd February last, and the business had up to this time been as large as was anticipated, while the machinery had been maintained throughout in excellent order at a very trifling expenditure. The number of bales pressed had been 31,864 in March and April, 1881, against 25,846 bales in the corresponding period of 1880, being an increase of 6,018 bales for the two months this year.

Mr. N. M. Wadia said that, when the new deed was drawn up, he raised objections to some of the clauses, which were supported by one of the liquidators, who, however, veered round subsequently. With the Chairman's permission, Mr. Wadia read the letter which he had addressed to the secretaries and treasurers. In the letter in question, Mr. Wadia raised objections to the following clauses in the memorandum and Articles of association of the New Apollo Press Company, formed for the purpose of taking over the affairs of the Apollo Press Company:—1. The power to build mills is highly objectionable, and is very likely to be abused, as in the instance of the Hydraulic Press Company, which ruined its shareholders by erecting a mill. 2. The power to amalgamate with any other company is also very dangerous, as evidenced by the disastrous failure of the London and Bombay Bank. The qualification of holding four shares for the office of a director appears to be insufficient, and should be raised to ten. 4. The directors should have power to increase as well as to decrease the agents' commission.

The Chairman explained that the Articles of Association were circulated on the 13th October, 1880, and came on for consideration before the liquidators in December, 1880. Mr. Wadia lay by for more than two months, and made only one remark about increasing the number of directors. What he afterwards wrote was sheer, absolute nonsense. No charges had been introduced in the new Articles of Association except as to building a mill and amalgamating with another company; but these matters were to be decided upon only by a large majority of the shareholders; the secretaries and treasurers could do nothing.

Mr. Wadia spoke at some length, reiterating his objections to the two proposed alterations, and protesting against them.

It was explained that the alterations were made for the benefit of the shareholders in order to save the expense of winding up the company at a future time in case the shareholders resolved to extend the operations of the company.

After some further discussion, it was proposed by the Chairman, and seconded by Mr. Hormusjee Cursetjee Ashburner, that the directors' report, which had been circulated, be approved and adopted.

Mr. H. A. Suntook proposed an amendment, which was seconded by Mr. N. M. Wadia, that the meeting be adjourned for a month, and that, in the meantime, the Articles of Association of the new company be printed and circulated amongst the shareholders.

On a division, the amendment was lost; and the Chairman's proposition for the adoption of the report was carried by a majority of votes.

On the motion of Mr. R. P. Billimoria, seconded by Mr. Sorabjee Pestonjee Powalla, the present directors, Messrs. E. M. Fogo, S. N. Wadia, Hormusjee Cursetjee Ashburner, Ahmedbhoy Hubibhoy, N. M. Wadia, and Shamjee Jadhowjee, who vacated from office, were re-elected.

The Chairman said that Mr. Nanabhoy Byramjee Jeejeebhoy was a very valuable director some time ago, and that he had great pleasure therefore in now proposing him as an additional director.

The proposition was seconded by Mr. Rahimbhoy Hubibhoy and carried unanimously.

It was proposed by Mr. Nanabhoy Byramjee Jeejeebhoy, seconded by Mr. N. B. Devacha, and carried, that Messrs. Jehangir Cursetjee Furdoonjee and Nusserwanjee Sorabjee Jamsetjee be appointed auditors, and that their remuneration be Rs. 150 each.

The proceedings terminated with a vote of thanks to the Chairman.

DIVINE SERVICES.

CHANGE OF SUNDAY SERVICES AT ST. THOMAS' CATHEDRAL.

From May 22nd till further notice.

7 a.m. Holy Communion. 8 a.m. Matins and Sermon.
5-30 p.m. Litany. 6 p.m. Evensong and Sermon.

A. C. LOCHEE,
Acting Garrison Chaplain.

METEOROLOGICAL OBSERVATIONS.

GOVERNMENT OBSERVATORY.
BOMBAY, 18TH MAY 1881.

Means of observations taken at 6 a.m., 10 a.m., 2 p.m., 4 p.m., and 10 p.m.

Barometer corrected 32 deg. Fah.	29·728

Wet Bulb Thermometer	79·4
Dew Point	76·9
Relative humidity of Air	71·5
Extent of cloudy sky (the whole sky clouded=8.)	1·2
Maximum temperature of air (read at 6 p.m.)	91·5
Minimum do. (read at 10 a.m.)	81·0
General Direction of Wind	WSW, W, WNW, W.
Movement of wind in 24 hours	175

From midnight to midnight.

Holloway's Ointment and Pills.—With the changing season it is prudent for all to rectify any ailment afflicting them; but it is incumbent on the aged, suffering under ulcerations and similar debilitating causes, to have them removed, or worse consequences will follow. This Ointment is their remedy; on its powers all may confidently rely; it not simply puts their sores out of sight, but extirpates the source of mischief, extracts the corroding poison, and stimulates nature to fill up the ulcer with sound, healthy granulations, that will abide through life. Under this treatment bad legs soon become sound, scorbutic skins cast off their scales, and scrofulous sores cease to annoy. Such hope for the diseased was unknown in former days.

ADDITIONAL PASSENGERS BY THE HOMEWARD MAIL.

The P. and O. Co.'s s. s. Thibet, Captain W. R. Jordan, sailed yesterday for Aden and Suez with the Europe mails and the following additional passengers:—

For Southampton—Two Misses Tidmarsh, Mr. Tidmarsh.
Mr. Anderson, Mr. Parker, Surgeon Carson, and Mr. Sayana.
For Brindisi—Major Plowden and Professor Ribble.
For Venice—Dr. and Mrs. Blair, two Misses Bidsdell, Mr Hardie, Mr. Holdew, and Mr. A. E. Keel.
For Suez—Mr. B. H. MacAdam.
For Aden—Mr. A. H. Ben Abdoola.

MR. BARROW'S LECTURE AND READINGS.

Mr. C. M. Barrow gave at the Framjee Hall on Wednesday evening a lecture on Education, followed by some readings selected from well-known authors. A number of Parsee students, with a sprinkling of European ladies and gentlemen, were present.

Mr. Barrow, in the course of his lecture, said that man is a compound being, made up of body, soul, and mind, and consequently, rightly understood, his education must be of a three-fold nature—moral, intellectual, and physical. This fact the lecturer wished to impress strongly on the mind of the native students. Mere book-learning was not real education. The student must have that kind of training which, as Herbert Spencer says, instils into the mind of the young that rational knowledge of right and wrong conduct which results from the personal experience of their good and bad consequences. Speaking of physical training, the lecturer observed that he found more attention was paid to it here than in Madras. He was struck by the large number of native youths, chiefly Parsees, who played cricket every evening on the Esplanade. The system of education, as pursued here, was, Mr. Barrow thought, not quite satisfactory. There should be a thorough grounding of the boys in the three R's, that the masters of high schools might have little difficulty on that score in raising the superstructure. The inspectors of schools were chiefly to blame for this state of things, as they, from mistaken kindness, passed many who were totally unfit to be passed into the high school department. The discipline of Indian schools was far inferior to that maintained in English schools. The reasons were not far to seek. Native gentlemen themselves sometimes complained of the want of order and regularity to be found in their own houses. Europeans with large families were, on the other hand, as a rule, strict disciplinarians, and they, therefore, insensibly acquired the art of discipline. But it must be borne in mind that discipline did not mean harsh treatment. It was to be maintained by firmness, by kindness, and by appealing to the better nature of boys and to their sense of justice.

The lecture was followed by some select readings, which were creditably rendered. The well-known piece of "The Bashful Man" from Mackenzie, in which is described the ridiculous situations of the unfortunate man at a dinner party, provoked a good deal of amusement. This was followed by a spirited rendering of Lord Brougham's outburst on the great number of taxes which civilization imposes upon a man from the time of his birth "till he is gathered to his fathers to be taxed no more." The famous trial of Bardell *versus* Pickwick was much enjoyed by everybody in the hall. An eloquent declamation on the liberty of the press, translated into English from a French work of Victor Hugo, was the next item in the programme. There were some sentences in the reading from Victor Hugo, which were a strange commentary on the Vernacular Press Act.

BENGAL.

The Population of Darjiling.—The population of Darjiling has increased at a rate only equalled by some of the new cities in America. The late census shows that the total population of the district is 157,038, of whom 89,365 are males and 67,528 females. The total population of the Darjiling thannah is 68,248, of Pashedewa 72,634, and of Karsiong 16,151. The census of 1872 gave a total of 94,712 souls, of which 53,057 were males and 41,655 females. This enormous increase is in some measure accounted for by the large area planted out under tea in 1873, 1874 and 1875.

Dave Carson.—Mr. Dave Carson charged a servant in his employ, one whom he had brought down all the way from Mooltan, with the theft in two separate cases, and on two different dates, of notes and silver to the value of Rs. 304-8, besides sundries to the value of Rs. 36 (their intrinsic value). The evidence went to show that the accused was in the employ of the complainant for about six months, that he absconded in April last, that previous to his leaving Mrs. Carson missed Rs. 100 in notes and Rs. 4 in silver, that instead of going to his native country (Mooltan) the prisoner had gone to Lucknow, where having been found in possession of articles and monies which he could not satisfactorily account for to the police, he was taken

ral Vincendon's the casualties are limited to three killed and about a dozen more or less seriously wounded.

At two o'clock the vanguard of this column carried the Rechid Macouras peak, at the summit of which the General had decided to pitch his tent. The whole affair was executed with consummate skill, and the young soldiers, who entered the army only five months ago, acted splendidly.

However, beginning from the moment we left the camp at three, the vanguard had already started forth on the work, and at four o'clock the General and his Staff were at head of the brigade advancing to Fedj Kalab, a pass in the Takuida Tharr. Here the first attempt at resistance was encountered. A band of fifty Kroumirs had posted themselves behind rocks, and when the French arrived they opened fire upon them.

A skirmish took place, in which fourteen were wounded. Then the enemy took to flight, and rushed into the ravine below, where they kept up an intermittent fire, but without any effect. It is doubtful, too, whether the return fire was very effective, for the Kroumirs fight as it was expected they would. They crawled almost up to the foe, hiding themselves behind the trees and rocks, and taking advantage of every inequality of ground, they then fired at their adversary point blank.

The enemy driven from this vantage ground, the column continued its march to the top of the Djebel Tekkek ridge, which forms the frontier line, till it reached the first of the Rechidel Gukaroura Peaks.

Then again resistance was offered, but it was very soon overcome.

I must not, however, omit to mention that General Vincendon was detained from eight to eleven o'clock on the Takintia ridge, a little northward of where the first skirmish took place, by the non-arrival of Palan's brigade, two companies of which had been cut off from the main force, and were separated from it by a deep ravine occupied by the Kroumirs.

The enemy was, however, at twelve o'clock, driven out of his positions, and the forward movement continued.

Skirmishing has been kept up all day by the Kroumirs, who show great bravery in attempting to cope with the force brought against them.

From where I am sitting on a rock I can see Tabarca, which is in flames.

The success is complete. It is expected that the camp will be attacked during the night.

QUESTIONS IN THE ENGLISH PARLIAMENT.

On April 28, Baron H. de Worms asked the Under-Secretary of State for Foreign Affairs in the House of Commons, whether any correspondence had taken place between her Majesty's Government and the Government of the French Republic with regard to the French Expedition to Tunis; and, if so, whether he could give the House any information on the subject or lay the papers upon the table.

Mr. M. Guest asked the hon. Baronet whether the report published in the daily journals with regard to the bombardment of the Island of Tabarca by a French vessel of war, and the landing of French troops in Tunisian territory was true; whether any information on the subject had been received by her Majesty's Government, and would be communicated to that House; if any measures had or would be taken for the protection of British interests in that Regency, and for the maintenance of the rights and privileges secured to British subjects in Tunis by treaties and conventions entered into between Great Britain and the Porte; whether her Majesty's Government had yet received any official assurances from the French Government that the *status quo*, as established and guaranteed by such treaties and conventions, or by protocol, as regards the Regency of Tunis, would be maintained; and whether any correspondence had passed between her Majesty's Government and that of Italy on the subject; and, if so, whether that also would be communicated to the House. The hon. member further stated that since he had put his questions on the paper he had seen it in the daily journals that the Bey had issued a protest to her Majesty's Government against the unwarrantable invasion of Tunisian territory by the French, and he asked whether her Majesty's Government had received that protest and intended to take any steps to urge on the French Government the maintenance of the *status quo* in that Regency.

Sir H. Wolff asked the Under-Secretary of State for Foreign Affairs whether her Majesty's Government would interpose their good office to prevent, by mediation, or international mediation, the outbreak of hostilities between France and Tunis.

Sir C. Dilke.—No official information has been received of the bombardment of Tabarca, but her Majesty's Government were informed on the 20th inst. that the landing of French troops was imminent. Her Majesty's Government have no reason to believe that at the present moment the interests mentioned in the third paragraph of the question of the hon. member for Wareham are threatened in Tunis, but a despatch boat has been sent to Goletta to keep up telegraphic communication with Europe in the event of its being interrupted, and a man-of-war is held in readiness at Malta to proceed to Tunis if required for the protection of British life and property. The French Government informed Lord Lyons on the 8th inst. that their military operations would be confined to the neighbourhood of the frontier and to the punishment of the lawless frontier tribes. Communications have been exchanged with the Italian Abassador on the subject of sending vessels of war for the protection of British and Italian interests, but nothing further has taken place on the general question of the present French Expedition. As regards isolated mediation by this country only, her Majesty's Government would consider it if asked by both parties, but only in that event. As regards joint or international mediation, her Majesty's Government have just received a communication from the Bey of Tunis, in which he requests the Great Powers signatories of the Treaty of Berlin, to mediate between the French Government and himself. There has not been time for her Majesty's Government to become acquainted with the views of other Powers appealed to, nor, as at present informed, do they know whether the action of the French forces is likely to extend beyond the measures necessary for carrying out the object of the Expedition, which is understood to be the punishment of the frontier tribes.

Answering a further question by Mr. Maciver,

Sir C. Dilke said it was because there was a large number of British Maltese and also of Italian subjects in Tunis that the British and Italian Governments had considered the necessity of protecting the life and property of those subjects.

Patronized by the Aristocracy and Elite, extensively used in the Army and Navy, and highly recommended by the leading Medical Practitioners.

V. Protected by the Royal Letters Patent, dated October 11, 1869. R.

DR. BRIGHT'S PHOSPHODYNE.

THE SAFEST AND ONLY RELIABLE PREPARTION OF PHOSPHORUS.

Multitudes of people are hopelessly suffering from Debility, Nervous and Liver Complaints, Depression of Spirits, Timidity, Indigestion, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy, DR. BRIGHT'S PHOSPHODYNE (Ozonic Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of these hitherto incurable and distressing maladies.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE, Phosphorus was but seldom prescribed as a medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils, Alcohol, Ether, in Rectified Alcohol, in Chloroform, Sulphuric Ether, in several advertised medicines, Chloroform, and hitherto known methods of preparations; but, in all the irregular results have its preparation, certain the form of DR. B[RIGHT]'S PHOSPHODYNE, its invaluable action on the human system is realized without any of the drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE, is prepared on a NEW PRINCIPLE, by which all possible risk and disagreeable after effects are entirely prevented.

Caution.—Avoid Phosphorus in the form of Pills or Lozenges, as they frequently contain SOLID PARTICLES of Phosphorus, which accumulate in the system, causing serious evils.

DR. BRIGHT'S PHOSPHODYNE is agreeable to the Palate and innocent in its action, while retaining all its extraordinary properties, and as a specific surpasses all the known Therapeutic agents of the present day.

DR. BRIGHT'S PHOSPHODYNE—Its use enables all debilitated organs to perform their natural functions. Persons suffering from Nervous Debility, or any of the hundred symptoms which this distressing disease assumes, may rest assured of an effectual cure by the use of this most invaluable remedy.

DR. BRIGHT'S PHOSPHODYNE.—The ONLY medicine of that name granted certificates by Her Majesty's Registrar of Trade Marks. Beware of counterfeit Phosphodynes and worthless imitations bearing similar names; they are in no way recognized by the medical profession. Being prepared from OBSOLETE Formulas, they are absolutely unreliable, and in some cases positively dangerous.

DR. BRIGHT'S PHOSPHODYNE

Is Sold in Cases Only by all Chemists and Patent Medicine Vendors throughout the Globe.

Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrasse, Bengalle, Chinese, and Japanese Languages accompany each case, without which none can possibly be genuine Phosphodyne. Every case bears the Trade Mark and Signature of Patentee.

SARSAPARILLA.
Wilkinson's Essence or Fluid Extract of
RED JAMAICA SARSAPARILLA

Is the ONLY PREPARATION RECOGNISED by the FACULTY as a WONDERFUL PURIFIER of the HUMAN BLOOD.

It is not too much to say that those suffering from the effect of TROPICAL CLIMATES, such as TORPID LIVER, DEBILITY, ATTENUATION of BODY, ERUPTIONS, LASSITUDE, &c., will, by taking this extraordinary ESSENCE of RED JAMAICA SARSAPARILLA, soon find relief and ultimately a cure. It is asserted by those who take a little DAILY (in accordance with the instructions given) the system becomes but liable to attacks of illness.

"We cannot speak too highly of it."—*Lancet.*

"We recommend your *Red Jamaica Sarsaparilla.*"—*Medical Review.*

"The only preparation for removing what may be called the Sequelæ of a mercurial course."—*Sir R. Martin.*

The late Lord Clyde, writing for a further supply of *Wilkinson's Sarsaparilla* says, "I am never without it, for when feeling depressed or out of sorts from anxiety or fatigue, a dose or two animates me."

"Your *Essence of Red Jamaica Sarsaparilla* CURED me of a Torpid Liver after all other remedies failed."—*Earl of Aldborough.*

PREPARED ONLY BY

DR. J. COLLIS BROWNE'S CHLORODYNE

IS THE
ORIGINAL AND ONLY GENUINE.

DR. J. COLLIS BROWNE (late Army Medical Staff) discovered a remedy, to denote which he coined the word CHLORODYNE. Dr. BROWNE is the sole inventor, and it is therefore evident that, as he has never published the formula, anything else sold under the name CHLORODYNE must be a piracy.

DR. J. COLLIS BROWNE'S CHLORODYNE.—All attempts at analysis have failed to discover its composition.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. Page Wood stated publicly in Court that DR. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE, that the whole story of the defendant was deliberately untrue, and he regretted to say it had been sworn to.—See the *Times*, July 13, 1864.

REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effect and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases:—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Whooping Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.
The Right Hon. Earl Russell communicated to the College of Physicians, and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE.—See *Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"CHLORODYNE is almost valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after 18 months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (Dec. 1865,) that in nearly every case F. Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866:—"CHLORODYNE is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place."

Extract from the General Board of Health, London, as to its efficacy in Cholera:—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Overwhelming medical testimony accompanies each bottle.

IMPORTANT CAUTION.—The Immense sale of this remedy has given rise to many unscrupulous imitations.

N. B.—Every bottle of genuine CHLORODYNE bears on the Government stamp the name of the inventor.
